TECHNICAL SKILLS

- **Programming:** Python, Java, HTML, CSS, Javascript, SQL, R, Unix, Kotlin
- **Tools:** Git, Flask, CoHere, Cloud Servers, Pycharm, VS Code, GitHub, MS Office, Mac OS, Windows

EDUCATION

Bachelor of Science (BSc) : Computer Science

September 2022 — Present

Toronto Metropolitan University, Toronto, ON

- **Relevant Topics:** Discrete Math, Calculus, Trigonometry, Boolean Algebra, Algorithms, Object Oriented Design, Ethics and Professionalism

Martingrove Collegiate Institute

September 2018 — June 2022

- Demonstrated strong academics with a 4 year sustained honour roll and French Certification
- Top 6 Average of 92%, allowing for a \$2000 Entrance Scholarship to TMU
- Completed **Advanced Placement (AP)** level English
- Activities: Computer Science Club, DECA, Model United Nations, Key Club

PROJECTS

TXT811 | McGill Hacks, Montreal

January 2023

Takes the user's medical input in a textbox and outputs a disease diagnosis with a statistic.

- Trained CoHere's **NLP Model** with 100+ symptoms to help potentially diagnose diseases.
- Exported the **frontend** code via Python and **used Flask** to upload it onto a **Cloud server**.
- Created a **backend** for the project using HTML/CSS and JS and connected it to the Python code.

Technologies: CoHere NLP, DigitalOceans Cloud Server, Python, Flask, HTML, CSS, Javascript

SmileStat | ConU Hacks, Montreal

January 2023

Takes a picture of the user while answering a questionnaire to determine if they are telling the truth.

- Worked on the **front-end** for a website where a True and False question is stored as binary.
- Built the python **backend** using a **DeepFace framework** and **OpenCV** to detect if the user is smiling or not (which is also stored as binary).
- Uploaded the **frontend** code **using Flask** to upload it onto a **Cloud server**.

Technologies: OpenCV, DeepFace, Google Cloud, Python, Flask, HTML, CSS, Javascript

EXTRACURRICULAR

Metropolitan Data Science Association

January 2023 — Present

DataWorks Program

- Using the DataQuest platform, I am given opportunity to build and utilize my skills in **Data Analysis and Complex Queries using SQL**, and **Web Scraping and API's using R**.

TMU Computer Science Course Union

October 2022 — Present

First Year Representative

- Communicated and voiced the concerns of **over 500 first year computer science majors** at TMU.
- Pitched and organized events such as a **Python Crash Course** to prepare students for their exam.

CERTIFICATIONS

Software Fundamentals Certification

November 2022

- Unix, Git, Python and SQL Certification of Completion signed by Dr. Dimitri Androutsos.

Pascal Math Contest | University of Waterloo

March 2019

- Award of distinction for scoring in the top 25% of all international competitors.

Interests: Full Stack Development, Web Development, Artificial Intelligence, Cloud Computing, Cybersecurity
